- and more . . .

Accutrace's national client list includes hospital and healthcare systems, nursing homes, pharmaceutical delivery/logistics companies, education institutions, as well as federal and military healthcare contractors. Accutrace is a founding member of the National Association of Professional Background Screeners, which was founded to maintain a high standard of professionalism and integrity in the employment screening industry. Accutrace focuses on providing its clients with Primary Source verification data to obtain the most accurate information available but has access to databases to meet other client needs. We strive for world-class customer service and offer live assistance 24/7/365.

We understand the challenges organizations face, the strict compliance regulations regarding verification and screening and the urgent nature of report turnaround time lines.

### Services include, but are not limited to:

- Criminal History Records Search (county, statewide, nationwide, federal)
- Verifications (education, licensures, work history, references)
- Identity Services (address trace, SSN, I9, e-verify)
- Sanctions & Exclusions (FACIS, OIG, GSA, NPDB, DEA)
- Physician privileging and healthcare provider credentialing
- Job readiness physicals, drug testing and health screening
- Driving Records History
- FCRA support and Adverse-Action fulfillment
- User friendly online system and full ATS/HRIS system integrations
- Applicant online self-registration and payment for screening
- Full applicant on-boarding and credentialing packages
- Military base form collection and review (for example: SF85P, SF86)
- Credentials tracking with proactive notification of expiring credentials to maintain compliance

Accutrace goes far beyond the traditional screening organization with its capability of managing a candidate or file through the screening and on boarding process. Accutrace can deliver a fully complete applicant file according to the customer's specifications. Our specialized teams of screeners know the "ins and outs" of healthcare professional credentialing.

Simply stated, we provide you with the resources necessary to get the "job done" while making safe and informed decisions. Accutrace will design the right solution for you.

## How Accutrace Drives Best Practices

Accutrace delivers more than two decades of experience and expertise. Throughout our history we have helped to shape industry practices and have led many technical and operational initiatives. We consult with each client to help identify, implement, and sustain best practices throughout each background screening solution.

**Statutory and Regulatory Compliance** All Accutrace services, from criminal background checks and fingerprinting, to drug testing and adverse action notification, are executed in full compliance with state, federal, and industry rules and regulations. We work closely with legislative officials as well as regulatory agencies such as TSA, FAA, DOT, FCRA and the U.S. State Department to ensure our services, and our clients' screening practices, meet or exceed all mandates.

**Limiting Risk and Liability** Accutrace works with each client to identify the most effective suite of services to limit exposure to risk and liability. Whether it be risk of financial fraud, intellectual property security, workplace misconduct, theft, harassment or other liability, Accutrace can help clients identify consistent and effective employment screening practices.

**Identifying High-Value Applicants** Accutrace offers a broad-range of screening services that provide a wealth of accurate and relevant applicant data for use in selecting the best-qualified applicants. We help clients design job-based screening packages that identify and disclose the highly relevant details necessary for thorough hiring evaluations in each job position.

**Economy and Efficiency** Accutrace can help design service packages that maximize screening benefits, while also containing cost-per-hire. Our workflow solutions, administrative services and management controls also help drive down costs-per-transaction and reduce the time invested by your staff.

**Organizational Control** Accutrace can enhance the administration and oversight of screening programs for large and/or complex organizations. Our management and invoice systems can define multiple service groups, by business unit, department, region, franchise or other segmentation. Well-defined service groups improve both compliance and cost allocation.

**Process Automation/Integration** Accutrace can help automate aspects of HR workflow to help ensure adherence to employment procedures. Our user interface integrates diverse screening, administrative and management services within a single, easy-to-use platform.

**Systems Integration** Accutrace services can be incorporated into your existing workflow solution through integration with your proprietary or third-party HRMS or ATS. Systems integration strengthens the strategic contribution that screening services can make to your organization.

**Administrative Services** Accutrace provides administrative services solutions, such as adjudication, FCRA compliance and online application processing, to help clients improve compliance, speed transaction processing and reduce employee overhead.

**Detailed Reporting** Accutrace offers an extensive array of built-in reporting controls that provide easy, on-demand access to highly-detailed usage reports. We can also provide customized reports through a variety of channels to ensure you have complete access to the data necessary for effective management.
